| City of Palmer             | 3/24/2020     |

## TOOLS TO HELP YOU

We have been working hard to get you registered and get you the tools you need to identify who to collect from, when to start collecting, how to file and how to remit sales tax. See below for tools available to you.

### API Code

Our GIS mapping partner, TTR, has developed an API code (application program interface) that can work directly with your point-of-sale system. This code interfaces with the TTR database and provides up-to-date information regarding tax rate, exemptions, and sales tax cap. Send email to [AMSTP@akml.org](mailto:AMSTP@akml.org) for more information and to request API code.

## Business Center Quick Links

- Portal FAQs
- How to File Sales Tax Returns instructions (**NEW**)
- List of participating jurisdictions
- Sales tax file upload template for single business filers
- ACH Credit instructions for paying offline
- XML Help and Testing tool for bulk filers

## Bulk Filer Training

Our portal software partner, MUNIREvs, offers training for bulk filers upon request. Send email to [AMSTP@akml.org](mailto:AMSTP@akml.org) to request training.

---

*Last day of the month is the deadline for filing any sales tax for the previous period*

---

## UPCOMING NEWS

We are working on Seller FAQs to be posted shortly. This will be a good reference for your common questions. We are also working through interpretations of the Uniform Sales Tax Code and will post those as soon as they are finalized.

---

*We encourage all remote sellers with a physical presence in Alaska to separate revenue streams. Remote sales are filed through the Commission, physical presence sales are filed directly with the jurisdiction.*
